HOME OF OUR TRAININGS

LEED Platinum-certified ERKE Green Academy, Üsküdar · Istanbul

ABOUT ERKE

Designing sustainable buildings since 2007 — and sharing what we know with the industry.

Founded as an electrical design firm, ERKE provides green building, product sustainability and corporate sustainability consultancy through an accredited team of architects and electrical, mechanical and environmental engineers. Our headquarters is the LEED Platinum-certified ERKE Green Academy, which also hosts our trainings; alongside Istanbul, we work from offices in London and Dubai.

260+ completed projects	**140+** green building certifications	**200+** product sustainability certifications	**120+** electrical design projects	**40M+** m² of project area	**100+** trainings · 3000+ participants

MILESTONES

2007 — **Founded**
Electrical design and consultancy

2009 — **Green building consultancy**
LEED and BREEAM projects

2011 — **Green materials**
Certified materials platform

2012 — **Product declarations**
EPD, LCA, HPD

2013 — **ERKE Green Academy**
LEED Platinum training centre

2014 — **Lighting & UL**
UL Environment partner in Türkiye

2015 — **LEED trainings**
10 trainings · İzmir, Ankara, Adana, Düzce

2016 — **Public sector & investors**
Ministry of Health, Rönesans, GROHE

2017 — **Corporate trainings**
ENKA, Ministry of Environment

2020 — **Manufacturer trainings**
Bürotime, Jotun; Forbo, Geberit in 2023

2025 — **Universities**

OUR TRAINING PROGRAMMES

Theory in the classroom, practice in the building.

All trainings are delivered by our LEED AP architects and engineers who run live projects; participants examine the materials and systems at ERKE Green Academy on site, guided by information panels.

01 · USGBC

LEED

All credit categories, the scoring system, the certification process and reference standards. Preparation for the LEED Green Associate and LEED AP exams.

LEED GA · LEED AP exam prep

02 · BRE

BREEAM

Become a BREEAM International Assessor with BRE Academy trainers, without travelling abroad: about 30 hours of online modules, 2.5 days of classroom training and the exam.

New Construction · In-Use

03 · IWBI

WELL

Healthy building and occupant comfort certification: air, water, light, thermal comfort and acoustics criteria.

Healthy buildings & comfort

04 · GBCI

TRUE Zero Waste

Zero waste certification: waste reduction, recovery and circular operations strategies.

Facility & campus operations

05 · Product

LCA & EPD

Sustainable materials training: life cycle assessment, environmental product declarations and the eco-labels manufacturers encounter.

For material manufacturers

06 · Tailored

Corporate Training

Content tailored to your team: certification systems, daylight modelling, passive design, climate change, corporate carbon and greenhouse gas management.

At your office, at Green Academy or online

LEED training tour: Ankara, Istanbul, İzmir

Together with Geberit Türkiye, we delivered LEED training to architecture firms in three cities. The focus was water efficiency, indoor environmental quality, and materials and resources; the Geberit team shared sanitary and architectural system solutions in the context of sustainable building.

UNIVERSITY PARTNERSHIPS

With tomorrow’s architects at Green Academy.

April 2026 · ERKE Green Academy — LEED

Izmir Institute of Technology · Department of Architecture

LEED training for final-year students and faculty; daylight and views, building automation, water efficiency, greywater use, energy efficiency and indoor environmental quality were examined on site in a working office.

December 2025 · Online — Passive design & LCA

Yıldız Technical University · YTU Environment & Sustainability Club

Passive design principles, design criteria by climate type, sustainable material selection and the impact of building life cycle assessment (LCA) on design decisions, illustrated with real project examples.
